

The applicant handbooks are roadmaps for the accreditation process. The handbooks outline each step, including what happens at the Commission after you submit application sections. The handbook is a digital document, meant to be used in conjunction with the Commission website and other resource guides which are listed in the handbook. We recommend exploring each section of the handbook to help plan and prepare for the accreditation process.

**Download First-Time
Handbook**

**Download Renewal
Handbook**

To use handbook and to have access to all attachments, we recommend downloading and saving the handbook on your computer. Have questions about the handbook? Reach out, info@landtrustaccreditation.org
